This text presents the basic concepts and theoretical insights of symbolic interactionism for a wide range of students, comparing this perspective with others in social psychology. This sixth edition presents the essential concepts derived from Mead and other figures in sociology; explains the origins, development and significance of the self; analyzes the processes of definition of the situation, role-making and role-taking that underlie the formation of conduct in social interaction; shows how everyday social interaction is linked to larger social structures; examines the significance of deviant behaviour for the social order; and examines the social uses of symbolic interactionism.

Foundations of interpretive sociology original essays in symbolic interaction, Harvey A. Farberman, R. S. Perinbanayagam, 1985, Social Science, 357 pages.
